Nature Of Opinion

Docket Number: E-01933A-15-0239

Docket Position: Against

I saw the demand in the news to penalty charge solar panel users for grid upkeep. But thats contrary to the established American way. We all have maintained paved roads right up to our drive ways. But only those that use the roads by paying gasoline taxes pay for the upkeep. And thats as it should be. You pay for your use. Not somebody elses use. So its reasonable that solar users dont pay much if they dont use the grid much. But if they sell back a ton of solar power onto the grid, then they have to pay for more use of the grid. Thats the way the roads in America are. Just a bit of common sense for anybody thats interested.
